

To All Citizens in Lethbridge and Surrounding Areas Concerning Water Fluoridation

Let it be known I now speak not in the name of Fluoride Free Lethbridge, or in my own name, but in the Name of the Lord Jesus Christ.

In the movement to stop fluoridation, it's been advised by many to be tactful and respectful in our attempts to have fluoride removed by the authorities – in other words, to be politically correct. In essence, it is said that if the truth is told, we will appear extreme and fanatical. Thus, they fear, we will ruin our chances of changing the minds of city councilors and Lethbridge citizens who might have been persuaded to cease fluoridation.

Indeed, the Scriptures of God declare, "In being slow to anger a ruler is won over, and a soft tongue breaks the bone" (Proverbs 25:15 MKJV). However, it's time to say what needs to be said. Enough is enough.

You all need to know, with all assurance, that I bear no personal enmity against anyone, not any city councilor, medical authority, or any other. But I will tell you all where you stand before God now in this issue of fluoridation.

This message is for everyone because everyone is involved. Neutrality doesn't exist. If you don't care, you're in favor of poisoning Lethbridge citizens with one of the most toxic substances on earth – hydrofluorosilicic acid (HFSA). "Those who are not for Me are against Me," said the Lord, Who was hated for speaking the naked truth to the people and authorities of His day.

This message has come to burn in me and I must speak up. The back-and-forth science and politics have had their day. Debating opinion and voting against the rights of individuals have had theirs.

No more. This is not a matter of majority rule; it is, rather, a clear-cut matter of morality, of ethics, of right and wrong. It's that simple. It is a battle between the unseen forces of good and evil. It is spiritual warfare.

No plebiscite is warranted; indeed, it is a ploy of evil men and a consideration of the naïve. Only doing the right is acceptable. Cut off the fluoride to the water; live and let live. The time has come. You who hold the reins, stop poisoning the people. Stop it now.

For decades, noble professionals, through good reason and sound science, have spoken against fluoridation (adding hydrofluorosilicic acid to our municipal water supplies). Many knew the consequences of their stance but stood all the same, and they have been forced to pay a price. Many didn't know and hardly imagined the repercussions of their decision, but soon found out. They have suffered at the hands of the industries profiting from fluoridation, and at the hands of medical,

dental and governmental authorities that have religiously supported poisoning public waters with HFSA.

But these scientists, doctors and dentists suffered because, in good conscience, they couldn't countenance the general populace suffering the horrific effects of this terribly noxious waste product, wet-scrubbed from the smokestacks of the aluminum and phosphate fertilizer industries, which toxic waste by law is removed so as not to destroy the environment surrounding the factories.

These honest, dedicated individuals and organizations couldn't allow the fraud and destruction perpetrated by mercenary industry and government and health authorities. Many supporters of fluoridation have been brain-soiled and naive, to be sure, but they're responsible nonetheless.

Those sounding the trumpet of warning couldn't stand by knowing people would be harmed, notwithstanding the ignorant authorities assuring the public that fluoride was beneficial.

Those who deliberately, wittingly poison Lethbridge water or any other waters will have the greatest price to pay for their wanton disregard for neighbor and environment. Those who are aware of the toxic effects of HFSA and don't take a public stand for fear of social, marital, political, religious, financial, and business consequences will also be called into account from above. God is finished winking.

And those who are willingly ignorant of the issue won't escape God's judgment. Even as ignorance isn't permissible in a court of law on earth, so it isn't permissible in the Highest of courts. When you stand before God, defending yourself with, "I didn't know," you will be asked, "Then why did you support it?" Or if you say, "I thought it was good," then, "Why didn't you listen to the reason and pleading of those who only asked that you not force them?" None will escape culpability, not one.

Contrary to foolish and mistaken notions, it doesn't take a scientist or medical doctor to know the truth about the fluoride used in our drinking water. It only takes simple reason and a willingness to acknowledge the truth. Instead, people worship their doctors and dentists; they honor the white coat with the titles, and if those authorities say it's good to take poison, the people believe them. They worship the medical establishment; face it; it is idolatry, which is anti-Christ.

Consider this one simple fact: How is it doctors and dentists will admit they have no right to medicate anyone against their informed consent, yet they put their full weight behind city councils to mass medicate their entire populations, without diagnosis, without prescription, entirely disregarding the rights and needs of many? How is it they disregard the all-important principle of dosage, as if handing a bottle of pills to someone – anyone - and saying, "Take as little or as

much as you like; it doesn't really matter. Share it with your children, too"?

Reason alone screams against such madness. And fluoridation is madness, a wicked madness, and no matter how nice its perpetrators and defenders seem to be, it is wickedness. The consequences visited upon victims are the same.

You doctors and dentists, proud white coats, you will all pay for your negligence, your willful ignorance and for the hurt you cause to many by your presumption, arrogance and utter disregard for the real facts. You will pay dearly, in conscience and in all good things from above. You will not escape.

God is finished winking at your careless and evil ways. He will not excuse your irresponsible posturing and behavior. He will not forgive you for your cover up. He gave you your authority with people, but in supporting fluoridation and other evil practices, you abuse your privilege, offending Heaven.

All you government and medical officials, going right to the top of your associations, will answer to God, and that day is no longer far off. Your time is here. Is this a threat? No, I intend no evil on you, nor would I dare practice it, but I tell you that you will see God visit evil on perpetrators, and that, right soon.

Whether you know or don't know what you're doing, the evil of fluoridation can't be overlooked. Yes, your sin is greater when you deliberately do evil, but God doesn't overlook sins of ignorance. Fluoridation is sin. Science and eminent qualified spokespersons have said so, and you've ignored them. Woe to you! It is wickedness and God now tells you so. Your political correctness and honoring of those responsible for this aggression won't win His favor, but incur His wrath.

You churches out there, and you people who claim to have faith in the Lord Jesus Christ, professing His Name, you'll pay a greater price than those who profess no faith. You ought to be the salt of the earth and bulwarks against poisoning and destruction, lights shining in darkness, good leaven spreading goodness, but instead, your ways are contemptible. You are partners of the Devil himself, the Destroyer, the Serpent who comes to steal, kill, and destroy. Shame on you all who willingly ignore or support fluoridation, instead of taking an active role in opposing it.

And you pastors are the worst of all so-called believers. You stand there at your pulpits, looking learned and compassionate, blathering smooth words and practicing political correctness so that you can tickle ears and maintain your hireling privileges. You refuse to take a stand on social and moral issues, though people, including your own congregations, are suffering injustice, loss, disease and death, ignorantly or otherwise. Your silence and pretentious wisdom and tolerance bear witness against you. The blood of infants, the aged, and the poor cries out against your evil-doing and hypocrisy.

Will I lose the support of those against fluoridation who think I speak too strongly? It doesn't matter. This battle, I'm persuaded, is not mine, but God's. What need does He have of man's agreement or approval? If I lose every one of you, it doesn't matter. I must speak what God has given me to speak.

Wake up, people, to the evil being done by fluoridation. You've heard it said, "Live and learn," but now God says to you, "Learn and live." Trash your indifference, stubbornness and ignorance. Turn and stand for what's right. Stop covering your backsides with self-serving agendas, compromises and pretentious ethics. The gold you gain will rot, as will your consciences and peace of mind. Those associates who dictate your morality in supporting evil aren't your true friends.

Will your clients refuse to do business with you if you stand openly against what you know is poison? So, in effect, aren't they saying to you, "Unless you agree to being poisoned, we won't do business with you?"

But God is a True Friend to those who do what is right. It is guaranteed. So what will you choose? Will you choose the wisdom and counsel of men?

"Let it not be! But let God be true, and every man a liar; as it is written, 'That You might be justified in Your sayings, and will overcome when You are judged'" (Romans 3:4 MKJV).

Begin to do what's right and let those who choose to punish you for it be damned. When all is said and done, you'll not be answering to them. And you can be assured it won't pay you to subject yourself to their influence for any length of time or to any degree. Your cooperation with them will render short-term gain for long-term loss, sorrow and pain.

You won't escape the Law of the Universe of God, Who is righteous in all His ways. He rewards according to your agreement and punishes according to your disagreement with His just and true ways. You'll learn. It doesn't matter if you're atheist, agnostic, Catholic, Buddhist, Evangelical or anything else ethnic, social, cultural or religious. All will be judged by the light given and acted upon, or neglected and refused.

Do the right thing and waste no time doing it.

Victor Hafichuk
